this is a report on the proposed changes to s4c's funding and governance by the department for culture media and sport dcms following the 2010 comprehensive spending review the committee says a deal over s4c's future was struck in regrettable haste by the bbc and ministers

and that more detail should be given on the proposed funding and governance arrangements for the broadcaster nevertheless the committee argues that the proposed deal should result in synergies and cost savings for both broadcasters with studies estimating that s4c is responsible for sustaining over 2 000 jobs in wales and contributing 90 100 million to the welsh economy it is crucial that s4c continues to independently commission its programming from production companies based in wales rather than additional programming being supplied to the channel by the bbc under the government s proposed arrangements s4c s funding will shift from being provided by a direct grant from dcms to funding through the bbc s licence fee while it is essential that the dcms the bbc and s4c work together to achieve potential synergies and efficiencies this must not detract from s4c s independence the dcms and the bbc must guarantee s4c s funding and ensure that s4c receives in full its allocated portion of the licence fee the committee also argue for an enhanced role for the national assembly for wales in holding the s4c authority to account for its performance and for a wider review of the purpose and remit of the broadcaster

in the uk some 11 5m people already live with a recognised disability and more than a fifth of them experience some difficulty when using transport networks so it s essential that the department for transport delivers an ambitious accessibility action plan changes made ahead of the 2012 paralympic games delivered access for disabled people to significantly more parts of the public transport network for the first time and highlighted the immense value of such improvements for all yet a year later there is a risk that some of the momentum from london 2012 is being lost because further key accessibility improvements planned have been watered down or abandoned the committee s recommendations include imposing penalties on bus operators who claim to offer accessible routes but then fail to provide accessible buses the phased introduction of audio visual information systems on all buses over the next ten years phasing out the need for disabled travellers having to book organised assistance in advance financial incentives to encourage investment in fully accessible vehicles by taxi and private care

hire vehicle operators and a change to eu rules so that in future airlines are required to allow carers to travel free of charge when the airline judges a disabled person incapable of travelling independently the cabinet office should convene a working group of ministers and officials to improve cross government working on accessibility in order to secure the full benefits to be gained from widening disabled people's access to employment and training healthcare and wider participation in all parts of society
